## Your Poindexter Lineage

First Name Current Surname

### Instructions:

Please indicate on this Lineage Form how you are descended from your earliest known Poindexter ancestor. Line Number 1 is you, the descendant completing this membership application and your current spouse.

Beginning with Number 2, the **first** line is the name of your **male or female** parent or grandparent who descends from the Poindexter family (including other spellings, i.e., Poingdestre, Pendexter, Puddester). Do not list other spouses or marriages that you are not personally descended from. Complete as many generations you know. Use maiden/original surnames for all females. Use the Family Group Information Form (Page 6) to designate your children.

Sources: Please cite your sources for names, births, deaths, marriages, and places. Use page 7 for additional citations if you need more space. Do **not** cite an online website, such as ancestry.com, but do cite original or digital records you found online or in physical archives (such as courthouses, churches, and libraries), and give their locations. Do not trust, as reliable sources, family trees found online that do **not** cite actual records. An appropriate citation gives the information necessary to find the location details of that source so others can repeat your own genealogical research, i.e., name of record, page number, publication date, date you viewed the record, physical or online location of the record.
